Adani Atomic eyes domestic and global nuclear tech

Adani Power has been in talks with NPCIL for indigenous and global nuclear reactors deployment at brownfield sites to repurpose retiring fossil fuel-based power plants. Adani Atomic Energy Limited has shown interest in Bharat Small Reactors (BSRs), Bharat Small Modular Reactors (BSMRs) and is in talks with international players for commercial atomic power generation. On Thursday, the company unveiled newly incorporated entity Adani Atomic Energy Limited, which will generate, transmit and distribute electricity derived from nuclear or atomic energy. The company has been set up as a wholly-owned subsidiary with an initial investment of Rs 5 lakh, according to exchange filings.

DGCA fines Air India ₹1 crore for operating aircraft without valid safety clearance

In a statement, Air India said, "Air India acknowledges the receipt of a DGCA order in relation to an incident that was voluntarily reported back in 2025. All identified gaps have since been satisfactorily addressed and shared with the authority." India's aviation regulator, the Directorate General of Civil Aviation (DGCA), has imposed a penalty of \$110,350 (about ₹1 crore) on Air India for operating an aircraft on eight flights without a valid airworthiness permit, according to a confidential order reported by Reuters. The regulator found that an Airbus A320 conducted passenger flights on November 24-25, 2025, without a valid Airworthiness Review Certificate (ARC) — a mandatory annual clearance issued only after an aircraft passes safety and compliance checks, the report added citing a confidential order. As per the report, in its February 5 order addressed to Air India CEO Campbell Wilson, DGCA Joint Director General Maneesh Kumar said the lapse had: "further eroded public confidence and adversely impacted the safety compliance of the organisation." in its February 5 order addressed to Air India CEO Campbell Wilson, DGCA Joint Director General Maneesh Kumar said the lapse had.

BYD Atto 3 Now Gets Bigger Battery, More Range - But There Is A Catch!

BYD has unveiled the Atto 3 Evo with major upgrades, including a bigger battery, more range and even an all-wheel drive version. The Evo is more than a mere facelift because it also gets an updated electrical architecture to improve charging capacity and new software, among other refreshes. However, there is a catch for prospective buyers in India. Chinese EV maker BYD has given a major update to the Atto 3 electric SUV. Called the Atto 3 Evo, the updated SUV now comes with a larger 74.8 kWh battery pack, claimed range of up to 510 km and faster charging capability with an 800V electrical architecture. While the Atto 3 Evo addresses most of the complaints that existing owners have expressed, there is still a catch for prospective buyers who are considering the electric SUV in India. Here's what we know so far. The new Atto 3 Evo gets a bigger battery, a range of up to 510 km (WLTP) and a repositioned motor, which now makes it a rear-wheel drive instead of a front-wheel drive car. This makes it 1.8 seconds faster than before in a 0-100 kmph sprint of 5.5 seconds. That is not all, because BYD has also announced an Atto 3 Evo All-Wheel Drive (AWD) version for the SUV. This one is reported to make 449 hp and 560 Nm of torque and has a range of 470 km (WLTP). The catch in all these exciting details is that the new Atto 3 Evo has been announced for global markets

AI Impact Summit 2026: The Promise, Power and Pitfalls

There are summits that pass like seasons, and there are summits that seek to mark an era. On 16 January 2026, at Bharat Mandapam in New Delhi, the AI Summit India 2026 opened under the banner of ‘Bringing the world together,’ clearly aspiring to the latter. Prime Minister Narendra Modi, inaugurating the summit, declared that ‘AI must be anchored in human values and aligned with humanity’s collective progress.’ It was a line crafted not merely for applause, but for positioning. The staging was not ceremonial. It was declarative. India was AI Summit 2026 highlights: Vaishnav promises smooth experience for visitors, says ‘war room’ monitoring. issues not content to be a market for artificial intelligence. It wished to be a shaper of its meaning. The language was expansive. The theme, Sarvajana Hitaya, Sarvajana Sukhaya, invoked civilisational memory to frame a technological future. Artificial intelligence, the summit proposed, must be human-centric, inclusive and oriented toward welfare. It was a phrase designed to soften the steel edges of algorithmic ambition. Yet beneath the cadence lay hard realities. AI economic concentration and ethical anxiety.

Odisha inks pacts for Rs 67,000 Cr Renewable Energy Projects

By Bizodisha Bureau, Bhubaneswar, February 12, 2026: The Odisha government on Thursday inked agreements for the establishment of renewable projects with a cumulative investment of Rs 67,000 crore. The government owned GRIDCO signed the agreements with National Hydroelectric Power Corp (NHPC), Bharat Petroleum Corp Ltd (BPCL), North Eastern Electric Power Corp Ltd (NEEPCO), and ABC Cleantech Pvt Ltd & Axis Energy Ventures India Pvt Ltd for

developing 6.8 gigawatt of renewable energy, an official release said. The MoUs were signed in the presence of Deputy Chief Minister K V Singh Deo during the inauguration of the Odisha Renewable Energy Investor Conclave 2026. Singh Deo said the state was committed to being the frontrunner in the renewable energy sector in the country. "India has a bold 500-gw non-fossil energy target by 2030, and Odisha is contributing meaningfully to it. Odisha's coastline provides the state a distinct advantage to develop wind energy, alongside solar and small hydro," he said. "We also have huge storage potential. On the regulatory front, we offer robust policies and a favourable approval process. This two-day BPCL proposed to set up ground-mounted solar, floating solar PV and pumped storage projects, the statement said.

Bhubaneswar soon to get a facelift with Rs 8,307 Cr Odisha Capital Region Ring Road project

Odisha's capital, Bhubaneswar will soon get a facelift with the standing committee of the Odisha State Wildlife Board has granted wildlife clearing the Capital Region Ring Road (CRRR), a 110.87-km six-lane project that will link Rameswar in Khordha to Tangi in Cuttack district. The committee, chaired by Forest, Environment and Climate Change Minister Ganesh Ram Singhkhuntia, recommended the project for approval under the Bharatmala scheme, enabling the National Highways Authority of India (NHAI) to initiate the next round of statutory permissions, as per reports by The New Indian Express. The reports added that the proposal will now be placed before Chief Minister Mohan Charan Majhi, who heads the State Wildlife Board. Once the board grants approval, the project will be forwarded to the National Board of Wildlife for mandatory clearances. The Cabinet Committee on Economic Affairs, chaired by Prime Minister Narendra Modi, has earlier approved the CRRR under the hybrid annuity model at an investment of Rs 8,307.74 crore. The alignment will integrate NH-55, NH-57, NH-655 and NH-16 along with State Highway 65, creating seamless connectivity to economic, logistics and administrative nodes around Khordha, Cuttack and Dhenkanal. Apart from the ring road, the standing committee also approved four separate proposals for the installation of mobile towers in villages without telecom coverage. The detailed project report for the coastal corridor includes 36 major bridges, including a planned 3.3-km structure over the Mahanadi, along with 89 minor 210 km to 160.18 km and reduce travel time by nearly 45 percent. With wildlife clearance from the standing committee now secured, the CRRR awaits State Wildlife Board approval, followed by clearance from the National Board of Wildlife. Forest diversion procedures under the Forest Conservation Act will form the final pre-construction stage.

TVS ILP invests ₹125 crore in a new warehousing facility in Cuttack

The upcoming facility spans across 24 acres of land, housing two large warehouses totaling 5 lakh square feet, catering sectors like FMCG, FMCD, 3PL, and e-commerce. With its presence at a strategic location at the confluence of the Mumbai and Chennai-Kolkata highways (off NH 55), it enjoys excellent connectivity to the Paradip port and major parts of the country. TVS ILP will invest around ₹125 crore in the project and it anticipates its completion by the end of December 2024. The Cuttack logistics park is expected to generate over 110 direct jobs and between 500 to 1,000 indirect employment opportunities in the region, said a release.

Cuttack-BBSR-Puri-Paradip economic corridor launched

Mohan Charan Majhi, the chief minister of Odisha, on Saturday, February 7, 2026, launched a long-term economic vision document for the Bhubaneswar-Cuttack-Puri-Paradeep Economic Region (BCPPER), outlining an integrated strategy to transform this four-city corridor into a high-growth, globally competitive economic hub by 2047. Designed as a cornerstone of a developed Odisha and aligned with India's national development goals, the BCPPER vision seeks to integrate industrial expansion, urbanization, logistics, innovation, and cultural assets into a unified development framework. Targeting massive economic expansion with the current economic size of \$22.4 billion. The targeted economic size by 2047 is \$500 billion. It is expected to contribute significantly more than its current 19% share of Odisha's economy. Over 80 strategic projects have been identified spanning high-impact sectors, including metal downstream and advanced manufacturing, chemicals and petrochemicals, textiles innovation, education and skill development, tourism, culture and hospitality, and logistics and port-related industries.

Being an entrepreneur is far more fulfilling: Pawan Kumar Chandana

The co-founder of Skyroot Aerospace on learning curves, his experience as a scientist at Isro, developing reusable vehicles, and space sustainability. That is exactly what entrepreneurs are about, right? They take bold risks, and that is when you get benefits out of it. Though there were companies at that time, none of them would scale big. So I felt there is an opportunity to build the number one space company in India. And today we are the largest private space tech company in India with a team of almost 1,000 people, and two biggest factories in the country. It is easy to start a company when everything vehicles

that risk early on. We put in all [our] energy, brought the best people together, and the best investors to make it big. That was the thought process there, and it worked out.
